SUBJECT INDEX—VOLUME 77

E = Editorial; CPC = Clinicopathologic Conference; MSS = Medicine, Science, and Society

Abcess

- Pyomyositis. Increasing recognition in temperate climates, 768
- Trimethoprim/sulfamethoxazole-resistant nocardia asteroides causing multiple hepatic abscesses. Successful treatment with ampicillin, amikacin, and limited computed tomography-guided needle aspiration, 558

Acetate

- Gas exchange during dialysis. Contrasting mechanisms contributing to comparable alterations with acetate and bicarbonate buffers, 255

Acidosis

- Hyperchloremic metabolic acidosis after chlorine inhalation, 581

Acne

- Bilateral nasal bone osteophytosis associated with short-term oral isotretinoin therapy for cystic acne vulgaris, 736

Acquired immune deficiency syndrome

- Acquired immune deficiency syndrome. No evidence of the presence of cyclosporine, 797
- Disseminated histoplasmosis associated with the acquired immune deficiency syndrome, 579
- Hematologic abnormalities in the acquired immune deficiency syndrome, 224
- Sinusitis caused by *Legionella pneumophila* in a patient with the acquired immune deficiency syndrome, 957
- Toxoplasmosis presenting as panhypopituitarism in a patient with the acquired immune deficiency syndrome, 760

Actinomycosis

- Draining inguinal ulcer in a middle-aged woman (CPC), 537
- Intra-abdominal actinomycosis presenting with sulfur granules in the urine, 1126

Acute lymphoblastic leukemia

- Acute lymphoblastic leukemia manifested as aortic occlusion, 385
- Association of T cell acute lymphoblastic leukemia and histiocytic medullary reticulosis, 910

Addison's disease

- Addison's disease with adrenal enlargement on computed tomographic scanning. Report of two cases of tuberculosis and review of the literature, 365
- Ia-Positive T lymphocytes in recently diagnosed idiopathic Addison's disease, 597

Adenitis

- Nontropical chyluria secondary to massive mesenteric adenitis. Case report with metabolic and immunologic studies, 583

Adenocarcinoma

- Choroidal mass in a 56-year-old woman (CPC), 1095

Adenohypophysitis

- Primary hypothyroidism and

hypopituitarism in a young woman (CPC), 319

Adenoma

- Cyclic Cushing's syndrome, 944
- Neurocrest and colonic tumors: new clinical syndrome. Report of three cases, 725
- Scintigraphic localization of adrenal lesions in primary aldosteronism, 839

Adrenal disease

- Addison's disease with adrenal enlargement on computed tomographic scanning. Report of two cases of tuberculosis and review of the literature, 365
- Cyclic Cushing's syndrome, 944
- Ia-Positive T lymphocytes in recently diagnosed idiopathic Addison's disease, 597
- Scintigraphic localization of adrenal lesions in primary aldosteronism, 839

Adverse effects

- Alkalemia in diabetic ketoacidosis, 192
- Angiotensin II levels, hemodynamics, and sympathoadrenal function after low-dose captopril in heart failure, 880
- Bilateral diaphragmatic paralysis complicating local cardiac hypothermia during open heart surgery, 243
- Bilateral nasal bone osteophytosis associated with short-term oral isotretinoin therapy for cystic acne vulgaris, 736
- Complications of surgery in hypothyroid patients, 261
- Contaminated medication nebulizers in mechanical ventilator circuits. Source of bacterial aerosols, 834
- Dialysis hypoxemia. Role of dialyzer membrane and dialysate delivery system, 828
- Elevated hemoglobin A_{1c} and low-density lipoprotein cholesterol levels in thiazide-treated diabetic patients, 823
- Femoral osteonecrosis following soft tissue corticosteroid infiltration, 1119
- Five patients with iodine-induced hyperthyroidism, 378
- Hemodynamic changes in human anaphylaxis, 341
- Heterogeneity of heparin lots associated with thrombocytopenia and thromboembolism, 185
- 24-Hour mean pulse. Simple predictor of doxorubicin-induced cardiac damage, 399
- Leukocytosis and left shift associated with quinidine fever, 345
- Long-term survival and toxicity in small cell lung cancer. Southwest Oncology Group study, 415

- Paraspinal mass in an 80-year-old woman, 709
- Primary hypothyroidism and hypopituitarism in a young woman, 319

Cognitive function

- Decreased cognitive function in aging non-insulin-dependent diabetic patients, 1043

Colitis

- Antibody-dependent cell-mediated cytotoxicity in serum samples from patients with ulcerative colitis. Relationship to disease activity and response to total colectomy, 791
- Sulfasalazine in treatment of collagenous colitis. Case report and review of the literature, 162

Communication

- In quest of certainty (E), 969
- The lecture: where it wavers (E), 393

Compliance

- Long-term antiarrhythmic therapy. Problem of low drug levels and patient noncompliance, 1035

Computed tomography

- Addison's disease with adrenal enlargement on computed tomographic scanning. Report of two cases of tuberculosis and review of the literature, 365
- Progressive multifocal leukoencephalopathy in a renal transplant recipient. Increased diagnostic sensitivity of computed tomographic scanning by double-dose contrast with delayed films, 333
- Trimethoprim/sulfamethoxazole-resistant nocardia asteroides causing multiple hepatic abscesses. Successful treatment with ampicillin, amikacin, and limited computed tomography-guided needle aspiration, 558

Congestive heart failure

- Hydralazine therapy in chronic congestive heart failure. Sustained central and regional hemodynamic responses, 267

Contraceptives

- Draining inguinal ulcer in a middle-aged woman (CPC), 537

Coronary artery bypass

- Bilateral diaphragmatic paralysis complicating local cardiac hypothermia during open heart surgery, 243

Coronary artery disease

- Coronary artery spasm and cardiac arrest in carcinoid heart disease, 950
- Effects of caloric restriction and weight loss on glycemic control, insulin release and resistance, and atherosclerotic risk in obese patients with type II diabetes mellitus, 7
- Factors affecting sensitivity and specificity of exercise electrocardiography. Multivariable analysis, 64
- Immune complex deposition and coronary vasculitis in systemic lupus erythematosus. Report of two cases, 141

- Myocardial perfusion abnormalities in asymptomatic patients with systemic lupus erythematosus, 286

- Nonrandom occurrence of single-vessel coronary artery disease, 683

- Platelets, carotids, and coronaries.

- Critique on antithrombotic role of antiplatelet agents, exercise, and certain diets, 513

Corticosteroids

- Femoral osteonecrosis following soft tissue corticosteroid infiltration, 1119

Cost-effectiveness

- Physician beliefs, attitudes, and prescribing behavior for anti-inflammatory drugs, 313

Creatine kinase

- Creatine kinase levels after jogging in patients with cardiac disease, 497

CREST syndrome

- Myocardial function and perfusion in the CREST syndrome variant of progressive systemic sclerosis. Exercise radionuclide evaluation and comparison with diffuse scleroderma, 489

Cushing's syndrome

- Cushing's disease associated with ovarian dysgenesis, 1108
- Cyclic Cushing's syndrome, 944

Cyclosporine

- Acquired immune deficiency syndrome. No evidence of the presence of cyclosporine, 797
- Side effects of systemic cyclosporine in patients not undergoing transplantation, 652

Cystadenocarcinoma

- Pancreatic cystadenocarcinoma associated with strongyloides, 173

Cystic fibrosis

- Lectin-like factor and co-factor in serum from cystic fibrosis heterozygotes, 678

Cytosine arabinoside

- High-dose cytosine arabinoside. Active agent in treatment of non-Hodgkin's lymphoma, 845

Cytotoxicity

- Antibody-dependent cell-mediated cytotoxicity in serum samples from patients with ulcerative colitis. Relationship to disease activity and response to total colectomy, 791

Dazoxiben

- Controlled double-blind trial of dazoxiben and nifedipine in the treatment of Raynaud's phenomenon, 451

Dermatomyositis

- Penicillamine-induced myositis. Observations and unique features in two patients and review of the literature, 719

Diabetes mellitus

- Alkalemia in diabetic ketoacidosis, 192
- Concomitant insulin and sulfonylurea therapy in patients with type II diabetes. Effects on glucoregulation and lipid metabolism, 1002
- Decreased cognitive function in aging non-insulin-dependent diabetic patients, 1043
- Determinants of glucose and ketoacid concentrations in acutely hyperglycemic diabetic patients, 275
- Effects of caloric restriction and weight

- loss on glycemic control, insulin release and resistance, and atherosclerotic risk in obese patients with type II diabetes mellitus, 7
- Elevated hemoglobin A_{1c} and low-density lipoprotein cholesterol levels in thiazide-treated diabetic patients, 823
- Graded sucrose/carbohydrate diets in overtly hypertriglyceridemic diabetic patients, 1015

The kindly stress of hospitalization (MSS), 592
The lecture: where it wavers (E), 393

Effusion

Benign mesothelial proliferation with effusion. Clinicopathologic entity that may mimic malignancy, 887

Diagnostic utility of pleural fluid eosinophilia, 915

Electrocardiography

Factors affecting sensitivity and specificity of exercise electrocardiography. Multivariable analysis, 64

Embolism

Heterogeneity of heparin lots associated with thrombocytopenia and thromboembolism, 185

Endocarditis

Glomerulonephritis in bacterial endocarditis, 297

Enzymes

Clinical applications of angiotensin-converting enzyme inhibitors, 690

Eosinophilia

Diagnostic utility of pleural fluid eosinophilia, 915

Eosinophils

Necrotizing granulomatous vasculitis with eosinophilic infiltrates limited to the prostate. Case report and review of the literature, 362

Epinephrine

Adrenomedullary response to maximal stress in humans, 779

Epstein-Barr virus

Epstein-Barr virus-induced lymphoma in a cardiac transplant recipient, 179

Esophagus

Esophageal involvement by non-Hodgkin's lymphoma, 359

Estradiol

Serum estradiol levels in male cigarette smokers, 858

Estrogen

Serum estradiol levels in male cigarette smokers, 858

Ethics

Ethical issues in the treatment of patients with a remitting vegetative state, 373
New lessons favoring physicians' support of clinical trials, 533
The death of death with dignity (E), 775

Exercise

Creatine kinase levels after jogging in patients with cardiac disease, 497
Effect of aerobic exercise training on patients with systemic arterial hypertension, 785
Platelets, carotids, and coronaries. Critique on antithrombotic role of antiplatelet agents, exercise, and certain diets, 513
The generalist: a jaundiced view, XXXIV (MSS), 197

Exercise testing

Effects of ozone inhalation during exercise in selected patients with heart disease, 463
Factors affecting sensitivity and specificity of exercise electrocardiography. Multivariable analysis, 64
Myocardial function and perfusion in the CREST syndrome variant of progressive systemic sclerosis. Exercise radionuclide evaluation and comparison with diffuse scleroderma, 489

Factor VIII

Pulmonary function in hemophilic patients treated with commercial factor VIII concentrates, 293

Factor XI

Effect of hemodialysis on contact group of coagulation factors, platelets, and leukocytes, 437

Factor XII

Effect of hemodialysis on contact group of coagulation factors, platelets, and leukocytes, 437

Fibrocyst

Primary (AL) amyloidosis as a cause of breast masses, 981

Fibronectin

Plasma fibronectin as a marker for cancer and other diseases, 685

Folic acid

Folate metabolism and chromosomal stability in the fragile X syndrome, 602

Fragile X syndrome

Folate metabolism and chromosomal stability in the fragile X syndrome, 602

Freud

Modern correlates of Freudian psychology. Infant sexuality and the unconscious (MSS), 977

Fungal infection

Disseminated histoplasmosis associated with the acquired immune deficiency syndrome, 579
Invasive Fusarium infections in bone marrow transplant recipients, 645
Renal magnesium wasting associated with amphotericin B therapy, 471

Fusarium

Invasive Fusarium infections in bone marrow transplant recipients, 645

Gastric bypass

Effects of caloric restriction and weight loss on glycemic control, insulin release and resistance, and atherosclerotic risk in obese patients with type II diabetes mellitus, 7

Gastrointestinal disease

Antibody-dependent cell-mediated cytotoxicity in serum samples from patients with ulcerative colitis. Relationship to disease activity and response to total colectomy, 791
Canada-Cronkhite syndrome in an 82-year-old woman, 555
Colonic obstruction and perforation due to trichuris trichiura, 154
Esophageal involvement by non-Hodgkin's lymphoma, 359
Medical treatment of peptic ulcer disease: Is it truly efficacious? (E), 589
Sulfasalazine in treatment of collagenous colitis. Case report and review of the literature 162

Gaucher's disease

Immune thrombocytopenia and Gaucher's disease, 569

Genetic abnormality

Androgen receptor abnormalities in identical twins with oligospermia. Clinical and biochemical studies, 1049
Central nervous system infections associated with hereditary hemorrhagic telangiectasia, 86
C-II apolipoproteinemia and severe hypertriglyceridemia. Report of a rare case with absence of C-II apolipoprotein isoforms and review of the literature, 457

(Continued on next page)

Genetic abnormality (cont'd.)

- Cushing's disease associated with ovarian dysgenesis, 1108
- 1,25-Dihydroxyvitamin D resistance, rickets, and alopecia, 805
- Folate metabolism and chromosomal stability in the fragile X syndrome, 602
- Immune thrombocytopenia and Gaucher's disease, 569
- Lectin-like factor and co-factor in serum from cystic fibrosis heterozygotes, 678
- Metastatic islet cell tumor in Von Hippel-Lindau disease, 147
- New genetics of Burkitt's lymphoma and other non-Hodgkin's lymphomas, 1083
- Pulmonary function in hemophiliac patients treated with commercial factor VIII concentrates, 293
- Glomerulonephritis**
 - Glomerulonephritis in bacterial endocarditis, 297
- Glucose**
 - Determinants of glucose and ketoacid concentrations in acutely hyperglycemic diabetic patients, 275
 - Mechanism of pain in diabetic peripheral neuropathy. Effect of glucose on pain perception in humans, 79
 - Reliability of blood glucose monitoring by patients with diabetes mellitus, 211
- Gram stain**
 - Gram stain in Legionnaires' disease, 549
- Granulocytopenia**
 - Moxalactam plus piperacillin versus moxalactam plus amikacin in febrile granulocytopenic patients, 442
- Graves' disease**
 - Graves' disease in pregnancy years after hypothyroidism with recurrent passive-transfer neonatal Graves' disease in offspring. Therapeutic considerations, 572
 - Graves' ophthalmopathy. An unusual course, 1121
- Gynecomastia**
 - Gynecomastia in a hospitalized male population, 633
- Hematologic disease**
 - Acute lymphoblastic leukemia manifested as aortic occlusion, 385
 - Association of T cell acute lymphoblastic leukemia and histiocytic medullary reticulosis, 910
 - Central nervous system infections associated with hereditary hemorrhagic telangiectasia, 86
 - Endobronchial lymphocytic infiltration. Unusual manifestation of chronic lymphocytic leukemia, 755
 - Fever, leukopenia, acute renal failure, and death in a 85-year-old man (CPC), 117
 - Hematologic abnormalities in the acquired immune deficiency syndrome, 224
 - Heterogeneity of heparin lots associated with thrombocytopenia and thromboembolism, 185
 - Immune thrombocytopenia and Gaucher's disease, 569
 - Mott cells in a patient with a lymphoproliferative disorder. Differentiation of a clone of B lymphocytes into Mott cells, 125
 - Moxalactam plus piperacillin versus

- moxalactam plus amikacin in febrile granulocytopenic patients, 442
- Oral trimethoprim/sulfamethoxazole in attempt to prevent infection after induction chemotherapy for acute leukemia, 663
- Pulmonary function in hemophiliac patients treated with commercial factor VIII concentrates, 293
- Hemodialysis**
 - Effect of hemodialysis on contact group of coagulation factors, platelets, and leukocytes, 437
 - Evidence of increased parathyroid activity on discontinuation of high-aluminum dialysate in patients undergoing hemodialysis, 229
- Hemodynamics**
 - Angiotensin II levels, hemodynamics, and sympathoadrenal function after low-dose captopril in heart failure, 880
 - Carotid sinus hypersensitivity. Case report and review of the literature, 561
 - Hemodynamic and pulmonary studies in pulmonary alveolar microlithiasis, 176
 - Hemodynamic changes in human anaphylaxis, 341
 - Hydralazine therapy in chronic congestive heart failure. Sustained central and regional hemodynamic responses, 267
 - Nifedipine-induced renal dysfunction. Alterations in renal hemodynamics, 905
- Hemoglobin**
 - Elevated hemoglobin A_{1c} and low-density lipoprotein cholesterol levels in thiazide-treated diabetic patients, 823
- Hemophilia**
 - Pulmonary function in hemophiliac patients treated with commercial factor VIII concentrates, 293
- Heparin**
 - Heterogeneity of heparin lots associated with thrombocytopenia and thromboembolism, 185
- Hepatic disease**
 - Hepatitis B vaccination. Three decision strategies for the individual, 1023
 - Obstructive jaundice due to radiation-induced hepatic duct stricture, 723
 - Phencyclidine-induced malignant hyperthermia causing submassive liver necrosis, 167
 - Risk factors for development of lethal sequelae after hepatitis B virus infection in humans, 482
 - Trimethoprim/sulfamethoxazole-resistant nocardia asteroides causing multiple hepatic abscesses. Successful treatment with ampicillin, amikacin, and limited computed tomography-guided needle aspiration, 558
- Hepatitis**
 - Hepatitis B vaccination. Three decision strategies for the individual, 1023
 - Risk factors for development of lethal sequelae after hepatitis B virus infection in humans, 482
- Hereditary disorders**
 - Androgen receptor abnormalities in identical twins with oligospermia. Clinical and biochemical studies, 1049
 - Central nervous system infections associated with hereditary hemorrhagic telangiectasia, 86

- C-II anapilipoproteinemia and severe hypertriglyceridemia. Report of a rare case with absence of C-II apolipoprotein isoforms and review of the literature, 457
- Cushing's disease associated with ovarian dysgenesis, 1108
- 1,25-Dihydroxyvitamin D resistance, rickets, and alopecia, 805
- Folate metabolism and chromosomal stability in the fragile X syndrome, 602
- Immune thrombocytopenia and Gaucher's disease, 569
- Lectin-like factor and co-factor in serum from cystic fibrosis heterozygotes, 678
- Metastatic islet cell tumor in Von Hippel-Lindau disease, 147
- Pulmonary function in hemophiliac patients treated with commercial factor VIII concentrates, 293
- Herpes viruses**
 - Serologic analysis of first-episode nonprimary genital herpes simplex virus infection. Presence of type 2 antibody in acute serum samples, 1055
- Histoplasmosis**
 - Disseminated histoplasmosis associated with the acquired immune deficiency syndrome, 579
- HLA-B27**
 - HLA-B27-Associated heart disease. Clinicopathologic study of three cases, 961
- Hodgkin's disease**
 - Staging laparotomy and splenectomy in early Hodgkin's disease. No therapeutic benefit, 205
- Homosexuality**
 - Streptococcal lymphadenitis in homosexual men with chronic lymphadenopathy, 151
- Hospitalization**
 - The kindly stress of hospitalization (MSS), 592
- Hydralazine**
 - Hydralazine therapy in chronic congestive heart failure. Sustained central and regional hemodynamic responses, 267
- Hypercalcemia**
 - Reversible hypocalcemic hypercalcemia associated with hypothyroidism, 1101
 - Value of laboratory tests in the differential diagnosis of hypercalcemia, 863
- Hypercapnia**
 - Effect of low calorie intake on abnormal pulmonary physiology in patients with chronic hypercapnic respiratory failure, 987
- Hypercholesterolemia**
 - Comparison of effectiveness of thyrotropin-suppressive doses of D- and L-thyroxine in treatment of hypercholesterolemia, 475
- Hyperglycemia**
 - Determinants of glucose and ketoacid concentrations in acutely hyperglycemic diabetic patients, 275
- Hyperosmolar hyperglycemic nonketotic syndrome**
 - Hyperosmolar hyperglycemic nonketotic syndrome. Report of 22 cases and brief review, 899
- Hyperparathyroidism**
 - Far-advanced primary

- hyperparathyroidism in an 18-year-old young man, 545
- Hypersensitivity**
Carotid sinus hypersensitivity. Case report and review of the literature, 561
- Hypertension**
Caffeine and hypertension, 54
Comparison of the effects of diuretic therapy and low sodium intake in isolated systolic hypertension, 1061
Effect of aerobic exercise training on patients with systemic arterial hypertension, 785
Hypertension and sudden death. Increased ventricular ectopic activity in left ventricular hypertrophy, 18
Obesity in hypertension: how innocent a bystander? 1077
Renin dependency of blood pressure in isolated systolic hypertension, 407
- Hyperthermia**
Effects of induced total-body hyperthermia on phosphorus metabolism in humans, 250
Neuroleptic malignant syndrome. Patient with unique clinical and physiologic features, 338
Phencyclidine-induced malignant hyperthermia causing submassive liver necrosis, 167
- Hypothyroidism**
Five patients with iodine-induced hypothyroidism, 378
Graves' disease in pregnancy years after hypothyroidism with recurrent passive-transfer neonatal Graves' disease in offspring. Therapeutic considerations, 572
Immunologic studies in two patients with persistent lymphocytic thyroiditis, thyrotoxicosis, and low radioactive iodine uptake, 347
Rhabdomyolysis in thyroid storm, 733
- Hypertriglyceridemia**
C-II apolipoproteinemia and severe hypertriglyceridemia. Report of a rare case with absence of C-II apolipoprotein isoforms and review of the literature, 457
Graded sucrose/carbohydrate diets in overtly hypertriglyceridemic diabetic patients, 1015
- Hypertrophy**
Hypertension and sudden death. Increased ventricular ectopic activity in left ventricular hypertrophy, 18
- Hypokalemia**
Our appropriate concern about hypokalemia (E), 1
- Hypomagnesemia**
Renal magnesium wasting associated with amphotericin B therapy, 471
- Hyponatremia**
Hyponatremia due to cerebral salt-wasting syndrome. Combined cerebral and distal tubular lesion, 740
Water intoxication in a psychotic patient with normal renal water excretion, 773
- Hypopituitarism**
Primary hypothyroidism and hypopituitarism in a young woman (CPC), 319
- Hypothermia**
Bilateral diaphragmatic paralysis complicating local cardiac hypothermia during open heart surgery, 243
- Hypothyroidism**
Complications of surgery in hypothyroid patients, 261
Graves' disease in pregnancy years after hypothyroidism with recurrent passive-transfer neonatal Graves' disease in offspring. Therapeutic considerations, 572
Myxedema coma during long-term amiodarone therapy, 751
Primary hypothyroidism and hypopituitarism in a young woman (CPC), 319
Reversible alteration of the visual evoked potential in hypothyroidism, 1010
Reversible hypocalcemic hypercalcemia associated with hypothyroidism, 1101
- Hypoxemia**
Dialysis hypoxemia. Role of dialyzer membrane and dialysate delivery system, 828
Gas exchange during dialysis. Contrasting mechanisms contributing to comparable alterations with acetate and bicarbonate buffers, 255
- Ia antigen**
Ia-Positive T lymphocytes in recently diagnosed idiopathic Addison's disease, 597
- IgA**
Abdominal pain associated with IgA nephropathy. Possible mechanism, 765
- IgM**
Cellular immune findings in Lyme disease. Correlation with serum IgM and disease activity, 625
- Immune complex**
Immune complex deposition and coronary vasculitis in systemic lupus erythematosus. Report of two cases, 141
- Immune thrombocytopenic purpura**
Immune thrombocytopenia and Gaucher's disease, 569
- Immunization**
Hepatitis B vaccination. Three decision strategies for the individual, 1023
- Immunodeficiency**
Acquired immune deficiency syndrome. No evidence of the presence of cyclosporine, 797
Disseminated histoplasmosis associated with the acquired immune deficiency syndrome, 579
Hematologic abnormalities in the acquired immune deficiency syndrome, 224
Sinusitis caused by *Legionella pneumophila* in a patient with the acquired immune deficiency syndrome, 957
Toxoplasmosis presenting as panhypopituitarism in a patient with the acquired immune deficiency syndrome, 760
- Immunoglobulins**
Abdominal pain associated with IgA nephropathy. Possible mechanism, 765
Cellular immune findings in Lyme disease. Correlation with serum IgM and disease activity, 625
Mott cells in a patient with a lymphoproliferative disorder.
- Differentiation of a clone of B lymphocytes into Mott cells, 125
- Induction chemotherapy**
Oral trimethoprim/sulfamethoxazole in attempt to prevent infection after induction chemotherapy for acute leukemia, 663
- Infant sexuality**
Modern correlates of Freudian psychology
Infant sexuality and the unconscious (MSS), 977
- Infection**
Addison's disease with adrenal enlargement on computed tomographic scanning. Report of two cases of tuberculosis and review of the literature, 365
Association of aminoglycoside plasma levels with therapeutic outcome in gram-negative pneumonia, 657
Cefmenoxime. Clinical, bacteriologic, and pharmacologic studies, 72
Central nervous system infections associated with hereditary hemorrhagic telangiectasia, 86
Clinical and microbial features of prosthetic joint infection, 47
Colonic obstruction and perforation due to trichurias trichiura, 154
Contaminated medication nebulizers in mechanical ventilator circuits. Source of bacterial aerosols, 834
Disseminated histoplasmosis associated with the acquired immune deficiency syndrome, 579
Draining inguinal ulcer in a middle-aged woman (CPC), 537
Epstein-Barr virus-induced lymphoma in a cardiac transplant recipient, 179
Experience with tuberculosis in a public teaching hospital, 667
Fever, leukopenia, acute renal failure, and death in a 65-year-old man (CPC), 117
Fulminant hospital-acquired toxic shock syndrome, 331
Glomerulonephritis in bacterial endocarditis, 297
Gram stain in Legionnaires' disease, 549
Hepatitis B vaccination. Three decision strategies for the individual, 1023

Infection of a ventricular aneurysm and cardiac mural thrombus. Survival after surgical resection, 551
Intra-abdominal actinomycosis presenting with sulfur granules in the urine, 1126
Invasive *Fusarium* infections in bone marrow transplant recipients, 645
Mycobacterial pulmonary infections after allogeneic bone marrow transplantation, 35
Ocular and pericardial involvement in Legionnaires' disease, 1105
Oral trimethoprim/sulfamethoxazole in attempt to prevent infection after induction chemotherapy for acute leukemia, 663
Pancreatic cystadenocarcinoma associated with strongyloides, 173
Pneumococcal bacteremia at a medical/surgical hospital for adults between 1975 and 1980, 1091

(Continued on next page)

Infection (cont'd.)

- Progressive multifocal leukoencephalopathy in a renal transplant recipient. Increased diagnostic sensitivity of computed tomographic scanning by double-dose contrast with delayed films, 333
- Pyomyositis. Increasing recognition in temperate climates, 768
- Renal magnesium wasting associated with amphotericin B therapy, 471
- Risk factors for development of lethal sequelae after hepatitis B virus infection in humans, 482
- Salmonella bacteremia in patients with prosthetic heart valves, 61
- Serologic analysis of first-episode nonprimary genital herpes simplex virus infection. Presence of type 2 antibody in acute serum samples, 1055
- Short-course chemotherapy for tuberculosis with mainly twice-weekly isoniazid and rifampin. Community physicians' seven-year experience with mainly outpatients, 233
- Sinusitis caused by Legionella pneumophila in a patient with the acquired immune deficiency syndrome, 957
- Streptococcal lymphadenitis in homosexual men with chronic lymphadenopathy, 151
- Toxoplasmosis presenting as parhypopituitarism in a patient with the acquired immune deficiency syndrome, 760
- Trimethoprim/sulfamethoxazole-resistant nocardia asteroides causing multiple hepatic abscesses. Successful treatment with ampicillin, amikacin, and limited computed tomography-guided needle aspiration, 558

Insulin

- Concomitant insulin and sulfonylurea therapy in patients with type II diabetes. Effects on glucoregulation and lipid metabolism, 1002
- Effects of caloric restriction and weight loss on glycemic control, insulin release and resistance, and atherosclerotic risk in obese patients with type II diabetes mellitus, 7

Insulinoma

- Diabetogenic effect of pentamidine. In vitro and in vivo studies in a patient with malignant insulinoma, 41

Interferon

- Atypical tumor lysis syndrome in a patient with T cell lymphoma treated with recombinant leukocyte interferon, 953
- Collaborative phase I-II study of recombinant DNA-produced leukocyte interferon (clone A) in metastatic breast cancer, malignant lymphoma, and multiple myeloma, 427
- Recombinant alpha interferon in retreatment of two patients with pulmonary lymphoma. Dramatic responses with resolution of pulmonary complications, 355

Intracranial cyst

- Kallman's syndrome with associated cardiovascular and intracranial anomalies, 369

Intrauterine device

- Draining inguinal ulcer in a middle-aged woman (CPC), 537

Iodine

- Five patients with iodine-induced hyperthyroidism, 378
- Immunologic studies in two patients with persistent lymphocytic thyroiditis, thyrotoxicosis, and low radioactive iodine uptake, 347

Iritis

- Acute interstitial nephritis and iritis. Renal-ocular syndrome, 189

Irradiation

- Benefits versus risks in conservation surgery with irradiation for breast cancer, 93
- Long-term survival and toxicity in small cell lung cancer. Southwest Oncology Group study, 415
- Obstructive jaundice due to radiation-induced hepatic duct stricture, 723

Iset cell carcinoma

- Metastatic islet cell tumor in Von Hippel-Lindau disease, 147

Isoniazid

- Short-course chemotherapy for tuberculosis with mainly twice-weekly isoniazid and rifampin. Community physicians' seven-year experience with mainly outpatients, 233

Isotretinoin

- Bilateral nasal bone osteophytosis associated with short-term oral isotretinoin therapy for cystic acne vulgaris, 736

IUD

- Draining inguinal ulcer in a middle-aged woman (CPC), 537

Jaundice

- Obstructive jaundice due to radiation-induced hepatic duct stricture, 723

Joint disease

- Cellular immune findings in Lyme disease. Correlation with serum IgM and disease activity, 625
- Clinical and microbial features of prosthetic joint infection, 47

Kallman's syndrome

- Kallman's syndrome with associated cardiovascular and intracranial anomalies, 369

Ketoacidosis

- Alkalemia in diabetic ketoacidosis, 192
- Determinants of glucose and ketoacid concentrations in acutely hyperglycemic diabetic patients, 275

Laparotomy

- Staging laparotomy and splenectomy in early Hodgkin's disease. No therapeutic benefit, 205

Lectin

- Lectin-like factor and co-factor in serum from cystic fibrosis heterozygotes, 678

Lectures

- The lecture: where it wavers (E), 393

Left ventricle

- Hypertension and sudden death. Increased ventricular ectopic activity in left ventricular hypertrophy, 18

Legionella pneumophila

- Gram stain in Legionnaires' disease, 549
- Sinusitis caused by Legionella pneumophila in a patient with the

- acquired immune deficiency syndrome, 957

Legionnaires' disease

- Gram stain in Legionnaires' disease, 549
- Ocular and pericardial involvement in Legionnaires' disease, 1105

Leukemia

- Acute lymphoblastic leukemia manifested as aortic occlusion, 385
- Association of T cell acute lymphoblastic leukemia and histiocytic medullary reticulosis, 910
- Endobronchial lymphocytic infiltration. Unusual manifestation of chronic lymphocytic leukemia, 755
- Oral trimethoprim/sulfamethoxazole in attempt to prevent infection after induction chemotherapy for acute leukemia, 663

Leukocytes

- Effect of hemodialysis on contact group of coagulation factors, platelets, and leukocytes, 437
- Leukocytosis and left shift associated with quinidine fever, 345

Leukocytosis

- Leukocytosis and left shift associated with quinidine fever, 345

Leukoencephalopathy

- Progressive multifocal leukoencephalopathy in a renal transplant recipient. Increased diagnostic sensitivity of computed tomographic scanning by double-dose contrast with delayed films, 333

Leukopenia

- Fever, leukopenia, acute renal failure, and death in a 65-year-old man (CPC), 117

Lipoprotein

- Concomitant insulin and sulfonylurea therapy in patients with type II diabetes. Effects on glucoregulation and lipid metabolism, 1002
- Elevated hemoglobin A_{1c} and low-density lipoprotein cholesterol levels in thiazide-treated diabetic patients, 823

Lupus erythematosus

- Course of renal pathology in patients with systemic lupus erythematosus, 612
- Immune complex deposition and coronary vasculitis in systemic lupus erythematosus. Report of two cases, 141
- Lupus pregnancy. Case-control prospective study demonstrating absence of lupus exacerbation during or after pregnancy, 893
- Myocardial perfusion abnormalities in asymptomatic patients with systemic lupus erythematosus, 286
- Partial purification and characterization of plasma DNA and its relation to disease activity in systemic lupus erythematosus, 23

Lyme disease

- Cellular immune findings in Lyme disease. Correlation with serum IgM and disease activity, 625

Lymphadenitis

- Streptococcal lymphadenitis in homosexual men with chronic lymphadenopathy, 151

Lymphocytes

- Endobronchial lymphocytic infiltration. Unusual manifestation of chronic lymphocytic leukemia, 755
- Ia-Positive T lymphocytes in recently diagnosed idiopathic Addison's disease, 597
- Immunologic studies in two patients with persistent lymphocytic thyroiditis, thyrotoxicosis, and low radioactive iodine uptake, 347
- Mott cells in a patient with a lymphoproliferative disorder. Differentiation of a clone of B lymphocytes into Mott cells, 125

Lymphoma

- Atypical tumor lysis syndrome in a patient with T cell lymphoma treated with recombinant leukocyte interferon, 953
- Collaborative phase I-II study of recombinant DNA-produced leukocyte interferon (clone A) in metastatic breast cancer, malignant lymphoma, and multiple myeloma, 427
- Epstein-Barr virus-induced lymphoma in a cardiac transplant recipient, 179
- Esophageal involvement by non-Hodgkin's lymphoma, 359
- High-dose cytosine arabinoside. Active agent in treatment of non-Hodgkin's lymphoma, 845
- New genetics of Burkitt's lymphoma and other non-Hodgkin's lymphomas, 1083
- Paraspinal mass in an 80-year-old woman (CPC), 709
- Pseudonodular T cell lymphoblastic lymphoma, 947
- Recombinant alpha interferon in retreatment of two patients with pulmonary lymphoma. Dramatic responses with resolution of pulmonary complications, 355

Lymphoproliferative disease

- Mott cells in a patient with a lymphoproliferative disorder. Differentiation of a clone of B lymphocytes into Mott cells, 125

Magnesium

- Renal magnesium wasting associated with amphotericin B therapy, 471

Malignancy

- Atypical tumor lysis syndrome in a patient with T cell lymphoma treated with recombinant leukocyte interferon, 953
- Benefits versus risks in conservation surgery with irradiation for breast cancer, 93
- Catecholamine-secreting paraganglioma of the interatrial septum, 157
- Choroidal mass in a 56-year-old woman (CPC), 1095
- Collaborative phase I-II study of recombinant DNA-produced leukocyte interferon (clone A) in metastatic breast cancer, malignant lymphoma, and multiple myeloma, 427
- Coronary artery spasm and cardiac arrest in carcinoid heart disease, 950
- Diabetogenic effect of pentamidine. In vitro and in vivo studies in a patient with malignant insulinoma, 41
- Diarrhea and weight loss in a 73-year-old woman (CPC), 929

Effects of induced total-body hyperthermia on phosphorus metabolism in humans, 250

Epstein-Barr virus-induced lymphoma in a cardiac transplant recipient, 179

Esophageal involvement by non-Hodgkin's lymphoma, 359

High-dose cytosine arabinoside. Active agent in treatment of non-Hodgkin's lymphoma, 845

The kindly stress of hospitalization, 592

Menopause

Mammographic parenchymal patterns and risk of breast cancer in postmenopausal women, 621

Metastasis

- Choroidal mass in a 56-year-old woman (CPC), 1095
- Collaborative phase I-II study of recombinant DNA-produced leukocyte interferon (clone A) in metastatic breast cancer, malignant lymphoma, and multiple myeloma, 427
- Coronary artery spasm and cardiac arrest in carcinoid heart disease, 950
- Diarrhea and weight loss in a 73-year-old woman (CPC), 929
- Metastatic islet cell tumor in Von Hippel-Lindau disease, 147
- Paraneoplastic syndromes and constitutional symptoms in prediction of metastatic behavior of small cell carcinoma of the lung, 851

Methylprednisolone

- Cimetidine-methylprednisolone-theophylline metabolic interaction, 1115

Microthrombosis

- Hemodynamic and pulmonary studies in pulmonary alveolar microthrombosis, 176

Mitral valve

- Kallman's syndrome with associated cardiovascular and intracranial anomalies, 369

Morphine

- Safety and efficacy of continuous intravenous morphine for severe cancer pain, 199

Mott cells

- Mott cells in a patient with a lymphoproliferative disorder. Differentiation of a clone of B lymphocytes into Mott cells, 125

Moxalactam

- Moxalactam plus piperacillin versus moxalactam plus amikacin in febrile granulocytopenic patients, 442

Mycobacterium

- Mycobacterial pulmonary infections after allogeneic bone marrow transplantation, 35

Myeloma

- Collaborative phase I-II study of recombinant DNA-produced leukocyte interferon (clone A) in metastatic breast cancer, malignant lymphoma, and multiple myeloma, 427

Myocardial infarction

- Thrombolytic therapy for acute transmural myocardial infarction. Intracoronary versus intravenous, 921

Myxedema coma

- Myxedema coma during long-term amiodarone therapy, 751

Nebulizers

- Contaminated medication nebulizers in mechanical ventilator circuits. Source of bacterial aerosols, 834

Nephritis

- Acute interstitial nephritis and iritis. Renal-ocular syndrome, 189

Nephropathy

- Abdominal pain associated with IgA nephropathy. Possible mechanism, 765

Nephrotic syndrome

- Urinary excretion and deficiency of prothrombin in nephrotic syndrome, 433

Nervous system

- Central nervous system infections

associated with hereditary hemorrhagic telangiectasia, 86

Reversible alteration of the visual evoked potential in hypothyroidism, 1010

Neuroleptic malignant syndrome

Neuroleptic malignant syndrome. Patient with unique clinical and physiologic features, 338

Neurologic disease

Ethical issues in the treatment of patients with a remitting vegetative state, 373

Mechanism of pain in diabetic peripheral neuropathy. Effect of glucose on pain perception in humans, 79

Metastatic islet cell tumor in Von Hippel-Lindau disease, 147

Progressive multifocal leukoencephalopathy in a renal transplant recipient. Increased diagnostic sensitivity of computed tomographic scanning by double-dose contrast with delayed films, 333

Nifedipine

Controlled double-blind trial of dazoxiben and nifedipine in the treatment of Raynaud's phenomenon, 451

Nifedipine-induced renal dysfunction. Alterations in renal hemodynamics, 905

Nocardia asteroides

Trimethoprim/sulfamethoxazole-resistant nocardia asteroides causing multiple hepatic abscesses. Successful treatment with ampicillin, amikacin, and limited computed tomography-guided needle aspiration, 558

Non-Hodgkin's lymphoma

Esophageal involvement by non-Hodgkin's lymphoma, 359

High-dose cytosine arabinoside. Active agent in treatment of non-Hodgkin's lymphoma, 845

New genetics of Burkitt's lymphoma and other non-Hodgkin's lymphomas, 1083

Norepinephrine

Adrenomedullary response to maximal stress in humans, 779

Nosocomial infection

Contaminated medication nebulizers in mechanical ventilator circuits. Source of bacterial aerosols, 834

Fulminant hospital-acquired toxic shock syndrome, 331

Hospital-acquired bloodstream infections with *Staphylococcus epidermidis*. Review of 100 cases, 639

Nutrition

Effect of low calorie intake on abnormal pulmonary physiology in patients with chronic hypercapnic respiratory failure, 987

Graded sucrose/carbohydrate diets in overtly hypertriglyceridemic diabetic patients, 1015

The generalist: a jaundiced view, XXXIV (MSS), 197

Obesity

Effects of caloric restriction and weight loss on glycemic control, insulin release and resistance, and atherosclerotic risk in obese patients with type II diabetes mellitus, 7

Obesity in hypertension: how innocent a bystander? 1077

Ocular disease

Acute interstitial nephritis and iritis. Renal-ocular syndrome, 189

Graves' ophthalmopathy. An unusual course, 1121

Ocular and pericardial involvement in Legionnaires' disease, 1105

Side effects of systemic cyclosporine in patients not undergoing transplantation, 652

Oligospermia

Androgen receptor abnormalities in identical twins with oligospermia. Clinical and biochemical studies, 1049

Open heart surgery

Bilateral diaphragmatic paralysis complicating local cardiac hypothermia during open heart surgery, 243

Ophthalmopathy

Graves' ophthalmopathy. An unusual course, 1121

Opportunistic infection

Disseminated histoplasmosis associated with the acquired immune deficiency syndrome, 579

Osteomalacia

Oncogenous osteomalacia. Review of the world literature of 42 cases and report of two new cases, 501

Vitamin D metabolism and bone histomorphometry in a patient with antacid-induced osteomalacia, 747

Osteonecrosis

Femoral osteonecrosis following soft tissue corticosteroid infiltration, 1119

Osteophytosis

Bilateral nasal bone osteophytosis associated with short-term oral isotretinoin therapy for cystic acne vulgaris, 736

Ozone

Effects of ozone inhalation during exercise in selected patients with heart disease, 463

Panhypopituitarism

Toxoplasmosis presenting as panhypopituitarism in a patient with the acquired immune deficiency syndrome, 760

Paraganglioma

Catecholamine-secreting paraganglioma of the interatrial septum, 157

Paralysis

Bilateral diaphragmatic paralysis complicating local cardiac hypothermia during open heart surgery, 243

Parasitic infection

Colonic obstruction and perforation due to trichuris trichiura, 154

Pancreatic cystadenocarcinoma associated with strongyloides, 173

Toxoplasmosis presenting as panhypopituitarism in a patient with the acquired immune deficiency syndrome, 760

Paraspinal mass

Paraspinal mass in an 80-year-old woman (CPC), 709

Parathyroid disease

Far-advanced primary hyperparathyroidism in an 18-year-old young man, 545

Parathyroid hyperplasia and carcinoma within one gland, 131

- Parathyroid hormone**
Evidence of increased parathyroid activity on discontinuation of high-aluminum dialysate in patients undergoing hemodialysis, 229
- PCP**
Phencyclidine-induced malignant hyperthermia causing submassive liver necrosis, 167
- Penicillamine**
Penicillamine-induced myositis. Observations and unique features in two patients and review of the literature, 719
- Pentamidine**
Diabetogenic effect of pentamidine. In vitro and in vivo studies in a patient with malignant insulinoma, 41
- Peptic ulcer**
Medical treatment of peptic ulcer disease: Is it truly efficacious? (E), 589
- Pericarditis**
Ocular and pericardial involvement in Legionnaires' disease 1105
- Peripheral neuropathy**
Mechanism of pain in diabetic peripheral neuropathy. Effect of glucose on pain perception in humans, 79
- Phencyclidine**
Phencyclidine-induced malignant hyperthermia causing submassive liver necrosis, 167
- Phosphorus**
Effects of induced total-body hyperthermia on phosphorus metabolism in humans, 250
- Phosphorus trichloride**
Phosphorus trichloride toxicity. Preliminary report, 1039
- Piperacillin**
Moxalactam plus piperacillin versus moxalactam plus amikacin in febrile granulocytopenic patients, 442
- Pituitary disease**
Cyclic Cushing's syndrome, 944
Kallman's syndrome with associated cardiovascular and intracranial anomalies, 369
Primary hypothyroidism and hypopituitarism in a young woman (CPC), 319
Toxoplasmosis presenting as panhypopituitarism in a patient with the acquired immune deficiency syndrome, 760
- Plasminogen**
Increased releasable vascular plasminogen activator and a bleeding diathesis, 566
- Platelets**
Effect of hemodialysis on contact group of coagulation factors, platelets, and leukocytes, 437
Platelets, carotids, and coronaries. Critique on antithrombotic role of antiplatelet agents, exercise, and certain diets, 513
- Pleural fluid**
Diagnostic utility of pleural fluid eosinophilia, 915
- Pneumonia**
Association of aminoglycoside plasma levels with therapeutic outcome in gram-negative pneumonia, 657
Contaminated medication nebulizers in mechanical ventilator circuits. Source of bacterial aerosols, 834
Gram stain in Legionnaires' disease, 549
- Pollution**
Effects of ozone inhalation during exercise in selected patients with heart disease, 463
- Polyglandular disease**
Polyglandular autoimmune syndromes, 107
- Polyposis**
Canada-Cronkhite syndrome in an 82-year-old woman, 555
- Polysomnography**
Evaluation of sleep-disordered breathing. Is polysomnography necessary? 671
- Potassium**
Our appropriate concern about hypokalemia (E), 1

Gram stain in Legionnaires' disease, 549
Hemodynamic and pulmonary studies in pulmonary alveolar microlithiasis, 176
Heterogeneity of heparin lots associated with thrombocytopenia and thromboembolism, 185
Lectin-like factor and co-factor in serum from cystic fibrosis heterozygotes, 678
Mycobacterial pulmonary infections after allogeneic bone marrow transplantation, 35

Pulmonary function

- Carbon monoxide diffusing capacity as predictor of outcome in systemic sclerosis, 1027
- Dialysis hypoxemia. Role of dialyzer membrane and dialysate delivery system, 826
- Effect of low calorie intake on abnormal pulmonary physiology in patients with chronic hypercapnic respiratory failure, 987
- Evaluation of sleep-disordered breathing. Is polysomnography necessary? 671
- Gas exchange during dialysis. Contrasting mechanisms contributing to comparable alterations with acetate and bicarbonate buffers, 255
- Hemodynamic and pulmonary studies in pulmonary alveolar microlithiasis, 176
- Phosphorus trichloride toxicity. Preliminary report, 1039
- Pulmonary function in hemophilic patients treated with commercial factor VIII concentrates, 293

Pulse

- 24-Hour mean pulse. Simple predictor of doxorubicin-induced cardiac damage? 399

Pyomyositis

- Pyomyositis. Increasing recognition in temperate climates, 768

Quinidine

- Leukocytosis and left shift associated with quinidine fever, 345

Radioactive iodine

- Immunologic studies in two patients with persistent lymphocytic thyroiditis, thyrotoxicosis, and low radioactive iodine uptake, 347

Raynaud's phenomenon

- Association between fluorescent antinuclear antibodies, capillary patterns, and clinical features in scleroderma spectrum disorders, 812
- Controlled double-blind trial of dazoxiben and nifedipine in the treatment of Raynaud's phenomenon, 451
- Occlusive digital artery disease in patients with Raynaud's phenomenon, 995

Reiter's syndrome

- HLA-B27-Associated heart disease. Clinicopathologic study of three cases, 961

Renal disease

- Abdominal pain associated with IgA nephropathy. Possible mechanism, 765
- Acute interstitial nephritis and iritis. Renal-ocular syndrome, 189
- Course of renal pathology in patients with systemic lupus erythematosus, 612
- Fever, leukopenia, acute renal failure, and death in a 65-year-old man (CPC), 117
- Glomerulonephritis in bacterial endocarditis, 297
- Interpreting the fractional excretion of sodium, 699
- Intra-abdominal actinomycosis presenting with sulfur granules in the urine, 1126
- Necrotizing granulomatous vasculitis with eosinophilic infiltrates limited to the prostate. Case report and review of the literature, 362
- Nifedipine-induced renal dysfunction. Alterations in renal hemodynamics, 905

- Nontropical chyluria secondary to massive mesenteric adenitis. Case report with metabolic and immunologic studies, 583

- Rhabdomyolysis in thyroid storm, 733
- Short-term protein loading in assessment of patients with renal disease, 873
- Successful thrombolytic therapy in two patients with renal vein thrombosis, 1111
- Urinary excretion and deficiency of prothrombin in nephrotic syndrome, 433

Rendu-Osler-Weber disease

- Central nervous system infections associated with hereditary hemorrhagic telangiectasia, 86

Renin

- Effects of auriculin (atrial natriuretic factor) on blood pressure, renal function, and the renin-aldosterone system in dogs, 1069
- Renin dependency of blood pressure in isolated systolic hypertension, 407

Research

- New lessons favoring physicians' support of clinical trials, 533
- Post-marketing studies of drug efficacy: how? 703
- Rudolf Ludwig Karl Virchow, where are you now that we need you? 524
- The generalist: a jaundiced view, XXXVI (MSS), 777

Residency

- The chief medical resident (E), 195

Reticulosis

- Association of T cell acute lymphoblastic leukemia and histiocytic medullary reticulosis, 910

Rhabdomyolysis

- Rhabdomyolysis in thyroid storm, 733

Rickets

- 1,25-Dihydroxyvitamin D resistance, rickets, and alopecia, 805

Rifampin

- Short-course chemotherapy for tuberculosis with mainly twice-weekly isoniazid and rifampin. Community physicians' seven-year experience with mainly outpatients, 233

Risk factors

- Premature death and associated risk factors in urban middle-aged men, 418
- Risk factors for development of lethal sequelae after hepatitis B virus infection in humans, 482

Salmonella

- Salmonella bacteremia in patients with prosthetic heart valves, 61

Salt-wasting syndrome

- Hyponatremia due to cerebral salt-wasting syndrome. Combined cerebral and distal tubular lesion, 740

Schizophrenia

- Water intoxication in a psychotic patient with normal renal water excretion, 773

Scintigraphy

- Scintigraphic localization of adrenal lesions in primary aldosteronism, 839

Sclerosis

- Association between fluorescent antinuclear antibodies, capillary patterns, and clinical features in scleroderma spectrum disorders, 812

- Carbon monoxide diffusing capacity as predictor of outcome in systemic sclerosis, 1027

- Myocardial function and perfusion in the CREST syndrome variant of progressive systemic sclerosis. Exercise radionuclide evaluation and comparison with diffuse scleroderma, 489

Sex hormones

- Serum estradiol levels in male cigarette smokers, 858

Sexually transmitted disease

- Serologic analysis of first-episode nonprimary genital herpes simplex virus infection. Presence of type 2 antibody in acute serum samples, 1055

Sinusitis

- Sinusitis caused by Legionella pneumophila in a patient with the acquired immune deficiency syndrome, 957

SLE

- Course of renal pathology in patients with systemic lupus erythematosus, 612
- Immune complex deposition and coronary vasculitis in systemic lupus erythematosus. Report of two cases, 141
- Lupus pregnancy. Case-control prospective study demonstrating absence of lupus exacerbation during or after pregnancy, 893
- Myocardial perfusion abnormalities in asymptomatic patients with systemic lupus erythematosus, 286

- Partial purification and characterization of plasma DNA and its relation to disease activity in systemic lupus erythematosus, 23

Sleep disorders

- Evaluation of sleep-disordered breathing. Is polysomnography necessary? 671

Small cell carcinoma

- Long-term survival and toxicity in small cell lung cancer. Southwest Oncology Group study, 415
- Paraneoplastic syndromes and constitutional symptoms in prediction of metastatic behavior of small cell carcinoma of the lung, 851

Smoking

- Serum estradiol levels in male cigarette smokers, 858

Sodium

- Comparison of the effects of diuretic therapy and low sodium intake in isolated systolic hypertension, 1061
- Hyponatremia due to cerebral salt-wasting syndrome. Combined cerebral and distal tubular lesion, 740
- Interpreting the fractional excretion of sodium, 699
- Water intoxication in a psychotic patient with normal renal water excretion, 773

Somatization

- Panic disorder and somatization. Review of 55 cases, 101

Southwest Oncology Group

- Long-term survival and toxicity in small cell lung cancer. Southwest Oncology Group study, 415

Splenectomy

- Staging laparotomy and splenectomy in early Hodgkin's disease. No therapeutic benefit, 205

- Spondylitis**
HLA-B27-Associated heart disease. Clinicopathologic study of three cases, 961
- Staphylococcus epidermidis**
Hospital-acquired bloodstream infections with *Staphylococcus epidermidis*. Review of 100 cases, 639
- Steroid hormones**
Femoral osteonecrosis following soft tissue corticosteroid infiltration, 1119
- Streptococcus**
Streptococcal lymphadenitis in homosexual men with chronic lymphadenopathy, 151
- Streptococcus pneumoniae**
Pneumococcal bacteremia at a medical/surgical hospital for adults between 1975 and 1980, 1091
- Streptokinase**
Successful thrombolytic therapy in two patients with renal vein thrombosis, 1111
- Stress**
Adrenomedullary response to maximal stress in humans, 779
- Strongyloides**
Pancreatic cystadenocarcinoma associated with strongyloides, 173
- Sucrose**
Graded sucrose/carbohydrate diets in overtly hypertriglyceridemic diabetic patients, 1015
- Sudden death**
Hypertension and sudden death. Increased ventricular ectopic activity in left ventricular hypertrophy, 18
- Sulfasalazine**
Sulfasalazine in treatment of collagenous colitis. Case report and review of the literature, 162
- Sulfonylurea**
Concomitant insulin and sulfonylurea therapy in patients with type II diabetes. Effects on glucoregulation and lipid metabolism, 1002
- Sulfur**
Intra-abdominal actinomycosis presenting with sulfur granules in the urine, 1126
- Syncope**
Carotid sinus hypersensitivity. Case report and review of the literature, 561
- Systemic lupus erythematosus**
Course of renal pathology in patients with systemic lupus erythematosus, 612
Immune complex deposition and coronary vasculitis in systemic lupus erythematosus. Report of two cases, 141
Lupus pregnancy. Case-control prospective study demonstrating absence of lupus exacerbation during or after pregnancy, 893
Myocardial perfusion abnormalities in asymptomatic patients with systemic lupus erythematosus, 286
Partial purification and characterization of plasma DNA and its relation to disease activity in systemic lupus erythematosus, 23

- 972 **Bacon's Syndrome. The Decline of Natural History in Medicine**
Richard V. Lee
- 977 **Modern Correlates of Freudian Psychology. Infant Sexuality and the Unconscious**
Steven Lehrer

CLINICAL STUDIES

- 981 **Primary (AL) Amyloidosis as a Cause of Breast Masses**
Carolyn Riester O'Connor, Alan Rubinow, Alan S. Cohen
- 987 **Effect of Low Calorie Intake on Abnormal Pulmonary Physiology in Patients with Chronic Hypercapnic Respiratory Failure**
Venkat G. Tirilapur, M. Afzal Mir
- 995 **Occlusive Digital Artery Disease in Patients with Raynaud's Phenomenon**
Andrew J. Zweifler, Peter Trinkaus
- 1002 **Concomitant Insulin and Sulfonilurea Therapy in Patients with Type II Diabetes. Effects on Glucoregulation and Lipid Metabolism**
Kwame Osei, Thomas M. O'Dorisio, James M. Falko
- 1010 **Reversible Alteration of the Visual Evoked Potential in Hypothyroidism**
Paul W. Ladenson, John W. Stakes, E. Chester Ridgway
- 1015 **Graded Sucrose/Carbohydrate Diets in Overtly Hypertriglyceridemic Diabetic Patients**
Walter S. Jellish, Mary Ann Emanuele, Carlos Abaira
- 1023 **Hepatitis B Vaccination. Three Decision Strategies for the Individual**
Benjamin Littenberg, David F. Ransohoff
- 1027 **Carbon Monoxide Diffusing Capacity As Predictor of Outcome in Systemic Sclerosis**
Marc Peters-Golden, Robert A. Wise, Marc C. Hochberg, Mary Betty Stevens, Fredrick M. Wigley
- 1035 **Long-Term Antiarrhythmic Therapy. Problem of Low Drug Levels and Patient Noncompliance**
Anthony Squire, Martin E. Goldman, Joel Kupersmith, Eric H. Stern, Valentin Fuster, Paul Schweitzer
- 1039 **Phosphorus Trichloride Toxicity. Preliminary Report**
Suman Wason, Irving Gomolin, Peter Gross, Shiferau Mariam, Frederick H. Lovejoy, Jr.
- 1043 **Decreased Cognitive Function in Aging Non-Insulin-Dependent Diabetic Patients**
Lawrence C. Perlmutter, Malekeh K. Hakami, Catherine Hodgson-Harrington, Jay Ginsberg, Joanne Katz, Daniel E. Singer, David M. Nathan
- 1049 **Androgen Receptor Abnormalities in Identical Twins with Oligospermia. Clinical and Biochemical Studies**
Robert C. Smallridge, Robert Vigersky, Allan R. Glass, James E. Griffin, Beverly J. White, Charles Eil

- 1055 **Serologic Analysis of First-Episode Nonprimary Genital Herpes Simplex Virus Infection. Presence of Type 2 Antibody in Acute Serum Samples**
David I. Bernstein, Michael A. Lovett, Yvonne J. Bryson
- 1061 **Comparison of the Effects of Diuretic Therapy and Low Sodium Intake in Isolated Systolic Hypertension**
Andreas P. Niarcho, David L. Weinstein, John H. Laragh

SPECIAL ARTICLE

- 1069 **Effects of Auriculin (Atrial Natriuretic Factor) on Blood Pressure, Renal Function, and the Renin-Aldosterone System in Dogs**
Thomas Maack, Donald N. Marion, Maria Jose F. Camargo, Hollis D. Kleinert, John H. Laragh, E. Darracott Vaughan, Jr., Steven A. Atlas

REVIEWS

- 1077 **Obesity in Hypertension: How Innocent a Bystander?**
Franz H. Messerli
- 1083 **New Genetics of Burkitt's Lymphoma and Other Non-Hodgkin's Lymphomas**
Alan C. Aisenberg
- 1091 **Pneumococcal Bacteremia at a Medical/Surgical Hospital for Adults between 1975 and 1980**
F. L. Ruben, C. W. Norden, Y. Korica

CLINICOPATHOLOGIC CONFERENCE

- 1095 **Choroidal Mass in a 56-Year-Old Woman (Washington University School of Medicine)**

CASE REPORTS

- 1101 **Reversible Hypocalcemic Hypercalcemia Associated with Hypothyroidism**
Gary P. Zaloga, Charles Eil, John T. O'Brian
- 1105 **Ocular and Pericardial Involvement in Legionnaires' Disease**
Lance Friedland, David R. Snyderman, Alan S. Weingarden, Thomas R. Hedges, III, Richard Brown, Michael Busky
- 1108 **Cushing's Disease Associated with Ovarian Dysgenesis**
Robert A. Gelfand
- 1111 **Successful Thrombolytic Therapy in Two Patients with Renal Vein Thrombosis**
Jacob M. Rowe, Randall L. Rasmussen, Scott L. Mader, Paul L. Dimarco, Abraham T. K. Cockett, Victor J. Marder
- 1115 **Cimetidine-Methylprednisolone-Theophylline Metabolic Interaction**
Andrew W. Green, William F. Ebling, Mark J. Gardner, William J. Jusko
- 1119 **Femoral Osteonecrosis following Soft Tissue Corticosteroid Infiltration**
Richard Roseff, Juan J. Canoso
- 1121 **Graves' Ophthalmopathy. An Unusual Course**
Ramesh Khadori, Mark E. Weaver, Norman G. Soler

CONTENTS IN BRIEF

**1126 Intra-Abdominal Actinomycosis Presenting with Sulfur
Granules in the Urine**

Charles P. Wajszczuk, Theodore F. Logan, A. William
Pascuile, Monto Ho
